This annual index cumulates the author indices of the 1983 issues of Book Reviews of the Month. Citations in the annual index will lead the user directly to the citation for the book review.

We have retained the Dewey Classification number to indicate to those familiar with the classification system something of the book's subject matter.

Books without a classification number are indexed here for the first and only time.

HOW TO USE THIS INDEX

1. Look for the book by the name of its author. If it is an edited work, look for it by its title.

2. If found, copy down the bibliographic citation; if necessary, consult the next page for a list of journals and their abbreviations.

3. Retrieve the journal.

4. For reviews published before 1983, consult earlier years of the index.
